

Flavoured Kefir Water

Who loves water kefir?

I DO! I enjoy a glass of water kefir with dinner almost every night. It's my delicious, fizzy little evening treat that helps me chill and unwind and its full of probiotics which keep my immune system pumping at the levels it needs to keep me on my game.

The kids refer to it as "power juice" and ask for it daily which keeps the boogers at bay – and my sanity in check because healthy kids = happy mum!
